Mr. George Stover
Adventure Productions, Inc.
Aqua Kids Program
Baltimore, MD

4.24.08

Dear Mr. Stover,

Aqua Kids provides a unique vehicle for young people to learn about the diversity of marine animals around the world, emphasizing the importance of preserving fragile aquatic habitats and by encouraging children to take an active role in protecting the future of their community and the world. The program provides a window for the 13-16 year old audience into the management and preservation of unique habitats and species through the eyes of kids and their "hands-on" collaboration with science researchers and educators.

Sincerely,

J. Adam Frederick
